

Faroo
ResponseParser

Eexcess
ResponseParser

DuckDuckGo
ResponseParser

AbstractResponseParser

```
graph TD; AbstractResponseParser --> FarooResponseParser; AbstractResponseParser --> EexcessResponseParser; AbstractResponseParser --> DuckDuckGoResponseParser;
```

The diagram illustrates a class hierarchy. At the bottom is the 'AbstractResponseParser' class. Three lines extend upwards from this class, each ending in an arrowhead pointing to one of the three classes above it: 'FarooResponseParser', 'EexcessResponseParser', and 'DuckDuckGoResponseParser'. This indicates that these three classes inherit from the abstract class.
